

## REHAB SHOWER COMMODES

Traditionally, rehab shower commodes have been constructed of steel or stainless steel. These two materials had their drawbacks. Steel rusts, stainless steel is expensive and both are heavy. Ezee Life™ commodes are constructed of high quality aluminum that won't rust, is lighter than steel and lower in cost than stainless steel.

Optional 4 Way Seat

Anti tippers  
on all models

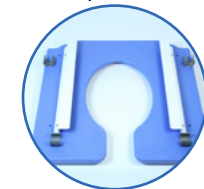

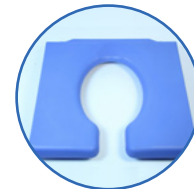

Height adjustable  
on all models
