As complex as it looks, the CHIROMA provides professional chiropractor with the simplicity of use. Since the main emphasis of chiropractic is on manual and manipulative therapy for the treatment of joint dysfunctions, especially those of the spinal column, CHIROMA serves as a "Force Extension" as well as "Force Absorbent" platform for chiropractors to perform various tentative tasks without the risks of collateral damage to the patient.

The adjustable tension drop can be initiated at all sections of our body:

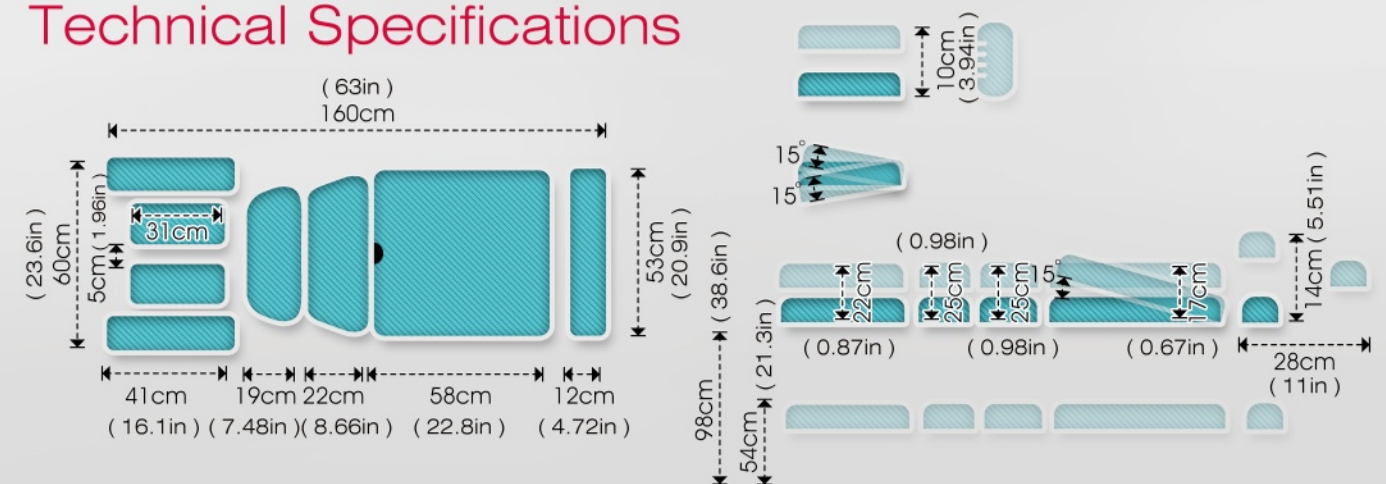

- Cervical Drop • Thoracic Drop
- Lumbar Drop • Pelvic Drop
