

Floam cushions

Cloud

Adjustable postural management and pressure redistribution

Features

- Modular construction of up to 30 Floam cells, dependent on size
- A combination of Floam cells with low, medium and high fill enables individual configuration for individual postural needs
- Additional / replacement Floam cells available individually
- Available in sizes 300 x 300 mm (9 Floam cells) to 580 x 400 mm (30 Floam cells)
- Foam base with waterproof cover included for additional protection
- Water-resistant multistretch Dartex outer cover
- 250 kg user weight limit

Benefits

- Excellent pressure redistribution over bony prominences, including trochanters for those at high risk of pressure ulcers
- Individual Floam cells ensure a high level of stability, e.g. for transfers
- Easy adjustment for postural deformity, e.g. pelvic obliquity

Adjustable ischial zone

Lateral thigh support

Adjustable medial thigh support (abductor)

Adjustable front thigh trough

* special order sizes, please ask for delivery time

- Max. user weight: 250 kg
- Cushion weight: 3.2 kg (400 x 400 mm)
- Seat cushion thickness: 110 mm
- Cover: Dartex

Functional height:

- Ischial area: adjustable
- Trochanter area: adjustable
- Thigh trough: adjustable
- Side wall: 110 mm
