Especially designed for  
patients with diabetes

cushion

support

pain-relief

The Comfort insole has been specially developed for feet that require extra cushioning such as diabetic or arthritic feet.

## Indications

---

- diabetes
- arthritis
- cornea skin

## Benefits

- Pre-smoothed foundation for an individual fit
- Antibacterial cover for a pleasant foot climate
- Multi-layered construction for a soft cushioned footbed
- Light core for support of the longitudinal arch
- Integrated metatarsal pad for support of the transverse arch (Comfort pro only)
