

Overview:

Designed for busy renal units, this chair is fully motorised and offers proven comfort, support and practicality. The electric operation controls height, Trendelenburg tilt, backrest, foot section, footrest position and CPR positioning. All these benefits provide ideal solutions for handling high risk patients for procedures such as dialysis, periton dialysis, plasmapheresis diagnosis, oncology and chemotherapy.

Benefits

- Lifetime frame & 5 year parts guarantee - see website for further details
- Electric operation of all chair positions for height, backrest, leg section, foot support and Trendelenburg tilt to -20°
- Electric push button CPR facility and foot operated manual CPR operation
- Battery back-up to provide functional operation during mains power failure
- Safe working load and lifting capacity of 250kg (550lb / 50 stone)
- Padded armrests with auto-adjustment to seated and semi-seated positions
- Matching head support cushion and knee bolster for additional comfort and support
- Large 125mm twin castors with central locking and steering facility
- Low patient transfer height of 52cm (20")
