Everyway Proprietary Cot Sides are foldable (retractable) underneath the table top and do not get in the way of therapist. No more injuries from bumping into the cot side as there is nothing protruding out of the table top when a cot side is fully retracted beneath the table.

(BLUE) CP-BL

Padded Cot Side (Side Rails) - You may choose matching paddings to suit your table. The added padding gives more comfort to patient. Even better, the paddings can be easily taken off when not required.

(CHROME) CC-00

Chromed Cot Side (Side Rails) - You may choose Chromed ones when paddings are not essential or desirable. The chrome rails still provide maximum protection even without the paddings.

Cot Side
