

Epicomed

Elbow soft support with silicone support pads and tension strap

Also available as Epicomed E+motion (p.120)

Indications

- lateral and medial epicondylitis (tennis or golfer's elbow)
- joint effusion and swelling due to arthritis and osteoarthritis
- chronic post-operative and post-traumatic inflammation

Mode of action

- the compressive knitted fabric and silicone pad insert exert a massage effect which promotes the healing process
- specific areas of pressure to reduce pain and relieve tension at the tendon inserts

Product benefits

The innovative knitted weave on the upper edge ensures a pressure-free, soft edge that fits perfectly to the contours of the patient's arm.

Removable strap for individual pressure adjustment.
