

- ✓ Gives nurses and care staff greater control over the handling operation
- ✓ Prevents injury to patients caused by grabbing hold of sensitive limbs
- ✓ Allows a secure and safe grip thus promoting confidence in both staff and patient

## Handling Sling

A comfortable, padded handling sling which can be used for standing transfers, repositioning in bed and leg transfers. The design allows for greater patient comfort as well as allowing staff to retain good posture when carrying out the handling task. The sling can also be used to move legs on and off a bed or a foot stool.

LOCO-008 (62cm x 22cm) Handling Sling

## Handling Belts

Soft padded handling belts available with or without a non-slip inner lining to help prevent the belt sliding upwards during a transfer (sit to stand or assisted walking). The handling belts also benefit from a series of vertical and lateral handholds allowing a more comfortable grip for the nurse or carer.

- LOCO-006 (Waist 24" - 45") Maxi
- LOCO-098 (Waist 24" - 45") Maxi Deluxe
- LOCO-007 (Waist 20" - 45") Mini
- LOCO-114 (Waist 20" - 45") Mini Deluxe
