Heel Spur

Heel Spur pro

## Materials

- |   |                             |        |
|---|-----------------------------|--------|
| 1 | Top Velours, <i>black</i>   | 0,7 mm |
| 2 | Superflex 25°, <i>blue</i>  | 3,0 mm |
| 3 | Top Cell 8°, <i>black</i>   | 4,0 mm |
| 4 | PPT 15°, <i>magenta</i>     | 3,0 mm |
| 5 | Multi-layered core          |        |
| 6 | Carbon fleece, <i>black</i> | 0,6 mm |

The Heel Spur insole relieves pressure in the heel area and along the plantar fascia to ease foot pain.

## Indications

---

- heel spur
- plantar fasciitis

## Benefits

- Targeted soft padding of the heel area and along the plantar fascia
- Multi-layered core for support of the longitudinal arch
- Relief of painful areas
- Integrated metatarsal pad for support of the transverse arch (Heel Spur pro only)
