FEATURES

Backrest

The backrest delivers pressure relief and long-term comfort by offering simple contouring support to the lower back whilst the user is sitting upright and in a tilted position.

Tilt-in-Space (TiS)

Redistribute body weight whilst maintaining hip and knee angle.

Adjustable Seat Depth

To maximise the performance of the WaterCell back, the seat depth can be easily adjusted to ensure the user's pelvis stays right back in the seat, correctly aligned and not tilting into a sacral sitting posture.

2 Braked Castors and 2 Swivel Castors

The castors have sealed bearing hubs for enhanced durability and smoother manoeuvrability.

Wooden Hand Grips

Wooden hand grips are solid enough to support the user as they rise to standing. Soft padded hand grips are an alternative option.

25° Negative Angle

The leg rest now has a 25° negative leg rest angle to facilitate standing and aids tight hamstrings.

WaterCell Technology

The seat cushion uses CareFlex WaterCell Technology® and Vapour Permeable (VP) upholstery, which work synergistically to provide continuous **pressure relief**.

Unique Angle Adjustable, Padded Flip-up Footplate

Additional stability and comfort of the feet when seated.

TECHNICAL DATA

Carers and clients can rely on the HydroTilt, it is an accommodating all-round chair for posture, pressure and comfort. With an adaptable fit and Tilt-in-Space functionality, the HydroTilt is a good choice where posture and pressure management are of equal priority. It is suitable for a wide range of seating needs in all care environments. It provides high levels of comfort and robust construction making it suitable for long-term care.

ACCESSORIES

Pelvic Belt
A simple webbing belt ideal for use during portering.

Padded Pelvic Belt
Maintains pelvic position. Padded for user comfort.

4-Point Padded Pelvic Belt
Four straps control pelvic position for maximum stability. Padded for user comfort.

Groin Harness
A positioning aid to provide maximum pelvic control and prevent the user from sliding forward in the seat.

Chest Harness
Gives comfort and support without restricting active positioning.

Sternum Harness
Provides greater upper trunk stability but allows for user movement.

Foam Headrest
Available in shallow, medium and deep, providing basic lateral head control.

Neck Headrest
Has a deep profile to give greater lateral control.

Soft Headrest
A comfortable rectangular pillow, available in shallow and deep.

Soft Profiled Headrest
A contoured pillow to fit shoulders, neck and head providing a supportive head position.

Soft Pillow Headrest
A deep, ultra soft pillow that conforms to the shape of head and shoulders providing a higher level of comfort.

In-line Headrest
Memory Foam lining providing full cranial support with cut-away sides for unobstructed sight and hearing.

Contoured Back
Provides gentle lateral support for the upper trunk. Centralises the posture with contoured pads but allows movement.

Waterfall Back
Consists of 2 lumbar cushions and a head cushion which accommodates posture and manages pressure with comfort.

Adjustable Laterals
Prescriptive thoracic control with independent height and width adjustment. Comes in one size and shape.

Lateral Blockers
L-shaped pads to provide simple lateral support.

Assurance Arms
Arm covers wrap around the front of the chair sides to prevent picking of the arm seams.

Back Rest Wedge
To adjust the back rest angle.

Tray
A plastic tray with low profiled edges to aid activities and leisure.

Pommel
Supports the whole knee preventing legs from pinching together.

Seat Wedge
Creates an acute hip angle to keep the pelvis in the back of the seat.

Channel Leg Rest
Helps centralise leg position.

Leg Rest Extension
Used to increase the length of the leg rest once elevated. For those with longer legs and if foot support is not required.

Footplate Lozenge
To provide greater comfort or for shorter leg length.

Detachable Footplate Pad
To provide greater comfort or for shorter leg length. Attaches to the footplate.

Soft Pillow Footplate Pad- Shallow or Deep
The soft pillow shaped pad is quickly and easily fixed to the existing footplate to provide greater client comfort. It can be used with all of our footplate's.

Channel Footplate Pad
Quickly and easily fixed to the existing footplate to provide greater client comfort and to aid correct foot positioning. Only available with standard leg rest.

Angle Adjustable Footplate
30° Range of angle adjustment to support the foot and ankle helping to stabilise the seating position.

Chair Protector
Fits over the seat, arms and lower back. Prevents contamination and stops debris getting trapped in the moving parts of the chair.

Manual or Motorised
Chair functions can be operated by manual gas action control or battery controlled motors.
