

Levamed

Ankle support with silicone cushions

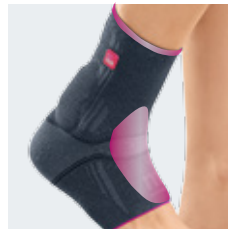

Indications

- slight instability of the ankle joint
- sprains and distorsions
- joint effusions and swellings due to arthritis and osteoarthritis
- chronic, post-operative and post-traumatic inflammation

Mode of action

- the compressive fabric and silicone inserts have a massage effect which promotes circulation and therefore assists with rapid resorption of haematomas and oedemas
- the support improves proprioception and aids muscular support (stabilisation of the ankle)

Product benefits

Innovative comfort knit with anatomically tailored support, soft instep and supple edging.

Integrated silicone pad with a 3D profile for a gentle massage effect and to reduce swelling.

Accessories

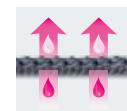

A donning aid / slip-in sock is supplied with each product.

silver

sand
